

# INTCET / International Conference **on** Integrated Engineering & Technology

**Tracks Civil and Environmental Engineering**  
**4<sup>th</sup> September 2024**  
Palm Garden Hotel, Putrajaya, Malaysia

## IMPORTANT DATES

### CALL FOR PAPER

**DEADLINE EXTENDED**

| #  | Date   |
|--|--|
| 1 - Full paper submission deadline         | 31 <sup>st</sup> July 2024 <del>31<sup>st</sup> May 2024</del> |
| 2 - Notification of acceptance             | 14 <sup>th</sup> Aug 2024                                      |
| 3 - Camera-ready paper submission deadline | 28 <sup>th</sup> Aug 2024                                      |
| 4 - Conference Day                         | 4 <sup>th</sup> Sept 2024                                      |

INTCET welcomes original submission of papers for special sessions on defense and security. Accepted papers will be published in WoS / SCOPUS indexed journal.

## REGISTRATION FEES

|   |                  |
|---|------------------|
| International Presenter                             | RM2000.00        |
| International Student / Listener / Additional Paper | RM1500.00        |
| <b>Local Presenter</b>                              | <b>RM1700.00</b> |
| Local Student / Listener / Additional Paper         | RM1300.00        |

All registrations are inclusive of access to all technical sessions, exhibitions & forums, conference kit, program book and publication (only for those submitted to technical/special session), lunches, welcome reception and refreshments. At least 1 author of accepted paper must register and complete the payment before the specified date in order for the paper to be included in the conference proceedings and publication. Accepted peer-reviewed full-length 6 to 8-page papers will be published in WoS/SCOPUS indexed journal.

With great honor, we would like to announce a call for paper **5<sup>th</sup> International Conference on Integrated Engineering & Technology (INTCET 2024)**, which will be held at Putrajaya, on 4<sup>th</sup> September 2024. **INTCET 2024** will promote and disseminate the knowledge concerning several topics and technologies related to tracks Civil and Environmental Engineering. The main goal of **INTCET 2024** is to bring together researchers, scientists and experts in universities, companies, institutions, communities, agencies, associations and societies and provide a unique platform for sharing worldwide ideas as well as the recent developments in sustainable engineering innovation.

## CONFERENCE HIGHLIGHTS

INTCET 2024 invites knowledge sharing on a tracks the civil and environmental engineering bandwidth, relevant but not limited to the following:

- Structural Engineering and Mechanics
- Dynamic and Earthquake Engineering
- Bridge Engineering
- Materials Engineering
- Geotechnical Engineering
- Engineering Geology
- Hydraulic Engineering
- Engineering Hydrology and water Resources
- Environmental Engineering
- Climate Change and Meteorology
- Wetland and Ecology
- Water and Wastewater Treatment Technologies
- Water Supply and Drainage
- Waste Disposal and Recycling
- Highway and Transportation
- Geographical Information Systems and Remote Sensing
- Construction and Building Materials
- Building Information Model (BIM)
- Disaster Preparedness, Response and Recovery
- Disaster Risk Reduction and Management
- Green and Sustainable Technology
- Rehabilitation and Maintenance
- Infrastructure Lifecycle Management
- Engineering Economic, Education, Law and Policy
- Environmental Safety and Health
