

INTCET / International Conference **on** Integrated Engineering & Technology

Tracks Electric, Electronic & Computer Engineering
4th September 2024
Palm Garden Hotel, Putrajaya, Malaysia

IMPORTANT DATES

CALL FOR PAPER

DEADLINE EXTENDED

#	Date
1 - Full paper submission deadline	31 st July 2024 31st May 2024
2 - Notification of acceptance	14 th Aug 2024
3 - Camera-ready paper submission deadline	28 th Aug 2024
4 - Conference Day	4 th Sept 2024

INTCET welcomes original submission of papers for special sessions on defense and security. Accepted peer-reviewed will be published in WoS/SCOPUS indexed journal.

With great honor, we would like to announce a call for paper **5th International Conference on Integrated Engineering & Technology (INTCET 2024)**, which will be held at Putrajaya, on 4th September 2024. **INTCET 2024** will promote and disseminate the knowledge concerning several topics and technologies related to tracks Electric, Electronic & Computer Engineering. The main goal of **INTCET 2024** is to bring together researchers, scientists and experts in universities, companies, institutions, communities, agencies, associations and societies and provide a unique platform for sharing worldwide ideas as well as the recent developments in sustainable engineering innovation.

REGISTRATION FEES

International Presenter	RM2000.00
International Student / Listener / Additional Paper	RM1500.00
Local Presenter	RM1700.00
Local Student / Listener / Additional Paper	RM1300.00

All registrations are inclusive of access to all technical sessions, exhibitions & forums, conference kit, program book and publication (only for those submitted to technical/special session), lunches, welcome reception and refreshments. At least 1 author of accepted paper must register and complete the payment before the specified date in order for the paper to be included in the conference proceedings and publication. Accepted peer-reviewed full-length 6 to 8-page papers will be published in WoS/SCOPUS indexed journal.

CONFERENCE HIGHLIGHTS

INTCET 2024 invites knowledge sharing on a tracks the electric, electronic & computer engineering bandwidth, relevant but not limited to the following:

- Electrical Engineering, Computer Science and Technology
- Electronics and Systems Engineering
- Computer Systems Engineering and Technology
- Antennas and Propagation
- Big Data Technologies
- Biomedical, bioelectronics and biosensors
- Cognitive, Cellular, and Heterogeneous Wireless Networks
- Computer Networks and Security
- Control Applications and Designs
- Digital Communications
- Electrical Machines and Drives
- Energy Engineering
- Grid and Cloud Computing
- High Voltage Engineering
- Image & Signal Processing
- Mechatronics
- Mobile and Wireless Communications
- Multimedia, Real-Time Networking, and Network Modelling
- Nanotechnology and Nanoengineering
- Optical and Optoelectronics
- Power Systems
- Security, Privacy, and Trust
- Sensor Networks, Embedded Systems, and Pervasive Computing
- Video and Multimedia Signal Processing
- Web Engineering
- Wireless LAN, Ad Hoc, and Mesh Networks
